MagiQ Technologies Announces Formation of New Business Unit MagiQ Research Labs (MRL)

*Focus on Custom Products and
Contract Research and Development Services*

SOMERVILLE, MA–April 7th, 2008 – MagiQ Technologies, Inc., the quantum solutions company, announced the creation of a new business unit called MagiQ Research Labs (MRL) to serve industrial, commercial and research customers. MRL is made up of a talented group of researchers who provide a broad technical base, which has resulted in the development of a wide spectrum of technologies with applications in both the public and private sectors. These include medical optics, quantum information, fiber sensing, aerospace and defense applications. MRL also contracts directly with government agencies such as the Army, DARPA, and NASA.

"While continuing to lead the industry in quantum cryptography, MagiQ needs to respond to customer demands for a more flexible and custom business model," said Dr. Audrius Berzanskis, Chief Operating Officer at MagiQ. "MagiQ Research Labs will bridge the gap between advanced science and commercial solutions."

MagiQ will provide the following products and services:

Networking and Security

- MagiQ QPN Security Gateway
- Network Security Architecture and Deployment Consulting Services

Commercial and Research Products

MRL is providing the following products and services on a custom specification and order basis.

- MRL Fiber Optics Interferometers
- MRL C/L-Band Pulsed Laser and Tunable Pulsed Laser
- MRL Fiber Sensors
- MRL Contract Research and Development Services
